

## **INNOVATING THE TRADITION**

YOKE, with a tradition of 20 years delivering grade 80 forged parts for chain slings and web slings as well as wire rope fittings, dedicates to the continuous improvement of all its manufactured products and service. After obtaining Type approval Certification by the international authorities ABS, DNV and SGS and constantly innovating its product range for load lifting and securing, YOKE has become the reference for quality in Markets of Asia, Europe and USA. The high quality level of YOKE products together with a highly qualified Staff, have led the Company to be a great name in all Continents. An **ISO 9001** registered Company with continuous endeavor in search for zero defects in all YOKE manufactured products and commitment with the standards for Safety and Quality make the best business partner a Supplier can be.

Officially established in Brazil, **YOKE INDUSTRIAL CORP.** announces the opening of its daughter Company **YOKE DO BRASIL LTDA.**, from February 2006, at the City Arujá – SP, located at approx. 30 minutes from Sao Paulo - the largest City in South America and Brazil's main Industrial Center. With the same commitment and tradition, the Brazilian Daughter Company will dedicate to delivering high quality grade 80 lifting chain and fittings as well as accessories for Wire Rope and Web Slings. Constant innovation and prompt delivery of its products, result in the high service level that has made YOKE synonymous of Quality worldwide.

It is our great pleasure to introduce to the load lifting segments, **YOKE – the Brand of evolution.**
