YOKE Block and Tackle with ABS

Following on from the ABS approval for our range of 8-591 Oilfield Hoist Block obtained in April 2016 suitable for both personnel lifting and hoisting, Yoke Industrial Corporation is proud to announce their continued development of accreditations, this time with American Bureau of Shipping for YSB range of 501 Swivel Shackle and 502 Swivel Hook Snatch Blocks, as well as its range of 503 Tail Board Blocks. This is not the first time that YOKE have quickly reacted to their customers' demands to provide a comprehensive range of Snatch Blocks with third party approvals and is a welcome addition.

Part number, wire rope size and working load limit are marked on each block.

Permanent batch codes link to test certificates for easy traceability

Supplied with bronze bushings and 4.5''-14'' with pressure lube fittings.

Meets or exceeds all requirements of ASME B30.26

Safety factor 4:1

Fatigue rated

YSB sheaves are closed die drop forged steel. Available from 3'' to 12'' satisfying your heavy duty applications.

Groove bottom hardened to 35 Rx maximizes durability of snatch Blocks

Third party approvals continue to give Yoke leverage in international markets where operators are seeking assurance, not only from a global brand, but to comply with operational and end user demands. Yoke actively work with its customers to better understand the needs not only for an

industry leading quality product but certification and documentation, to meet a variety of different market segments in which it operates around the world.

Customers, be it the offshore energy, mining, lifting, marine, construction or manufacturing sectors have partnered with Yoke and its global network of distributors to ensure they can obtain the same product wherever their assets are located. Ensuring compliance with EN, ASME, AISI, SAB and a broad range of global standards, supported in the knowledge that the products also carry backing of similarly positioned brand leading accreditation bodies such as ABS, DNV, DGUV and SGS among others.
