ESPR-DPP: Opening New Doors for Growth & Sustainability

A Global Shift Towards Transparency

The EU's new Ecodesign for Sustainable Products Regulation (ESPR), with the Digital Product Passport (DPP) at its heart, is setting a new global standard. This shift is not a burden but an opportunity—helping every business, large or small, show the value of their products with clarity and credibility.

A Chance for Every Business to Shine

For small and medium-sized companies, DPP compliant practices create a fairer playing field. By sharing reliable product information, even modest businesses can build stronger trust with partners and customers. This is a chance to stand out—not just by what you produce, but by how open and responsible you are.

Turning Compliance into Everyday Advantage

With the right tools—like RiConnect, SupraMint, and BlueSupra—meeting DPP compliant requirements becomes simple and manageable. More than that, compliance becomes a pathway to efficiency, better collaboration, and long-term growth. This is not just about following rules; it is about moving forward with confidence and optimism.

Three Core Components of the Solution

1. RiConnect Digital Service Platform (SaaS)

- Compliance Core: Purpose-built for ESPR-DPP, HSE, OSHA and global regulations.
- Fast Deployment: API integration with ERP, go live in just two weeks.
- Full Lifecycle Management: From manufacturing, inspection, rental to recycling – full traceability.
- Management Benefit: Clear accountability, transparent data, reduced risks.

2. SupraMint DPP Generator

- Factory-focused: Automatically generates Digital Product Passports (DPP) on the production line.
- Automated Binding: Serial number + RFID chip, ensuring unique product identity.
- Quick Implementation: Ready within two weeks, no IT expertise required.
- Management Benefit: Lower manual errors and compliance costs, immediate regulatory readiness.

3. BlueSupra Digital Chips

- Rugged RFID: IP68 waterproof/dustproof, IK10 impact resistanta, ATEX/IECEx explosion-proof.
- Unique Capability: NFC-readable even when embedded in metal.
- ISO 15693 Compliant: Globally interoperable, backed by 13+ international patents.
- Management Benefit: Ensures full asset traceability, strengthens brand trust and competitiveness.

📌 RiConnect + SupraMint + BlueSupra = a one-stop ESPR-DPP Total Solution. Helps companies achieve compliance quickly, while turning regulation into business opportunities.

Business Value & Competitive Advantage

The RiConnect Total Solution (RiConnect Platform, SupraMint DPP Generator, and BlueSupra Chips) not only ensures rapid compliance with ESPR-DPP, HSE, and OSHA regulations, but also transforms compliance into a true competitive advantage.

Executive Benefits

- Rapid compliance: Avoid market bans, fines, and brand risks.
- Cost reduction: Automation lowers manual errors and compliance expenses.
- End-to-end traceability: Transparency across assets and products builds supply chain trust.
- ESG support: Verified data strengthens sustainability and Net Zero commitments.

Competitive Advantage

- Strengthen market trust, attracting more customers and partners.
- Enable new business models such as equipment rental and circular economy.
- Turn regulatory pressure into business growth opportunities.
